

OvaScience to Present at Conference on Bioinnovation at the MIT Media Lab

June 28, 2013

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Jun. 28, 2013-- [OvaScienceSM](#), (NASDAQ: OVAS), a life sciences company focused on the discovery, development and commercialization of new treatments for infertility, announced today announced that Michelle Dipp, M.D., Ph.D., Chief Executive Officer of OvaScience, will present at "Encuentros 2013: Inspiring Innovation" on Friday, June 28 at the MIT Media Lab in Cambridge, Mass. Dr. Dipp will discuss how groundbreaking scientific discoveries in the life sciences can be translated into new therapies for patients, and how OvaScience is applying innovative strategies to develop new treatments for female infertility. The panel on "Bioinnovation: Crystallizing Scientific Discovery" is being held from 5:30 to 7:00 p.m.

The Encuentros programs are the largest meetings of Chilean students, researchers and entrepreneurs from a wide range of disciplines and varied parts of the world. The most recent version of Encuentros was held in Paris.

About OvaScience

OvaScience (NASDAQ: OVAS) is a life sciences company focused on the discovery, development and commercialization of new treatments for infertility. The Company's patented technology is based on the discovery of egg precursor cells (EggPCSM), which are found in the ovaries. By applying proprietary technology to identify and purify EggPCs, AUGMENTSM aims to improve egg quality and increase the success of *in vitro* fertilization (IVF). OvaScience's team of scientists, physicians and advisers includes recognized leaders in the field of reproductive medicine. For more information, please visit www.ovascience.com and connect with us on [Twitter](#) and [Facebook](#).

Forward-Looking Statements

This press release includes forward-looking statements about the prospects for the Company's technology in addressing female infertility, the Company's strategy, future plans and prospects, including statements regarding the development and planned launch of the Company's product candidates, including AUGMENT. Any statements in this release about our strategy, plans, prospects and future expectations, financial position and operations, and other statements containing the words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "aim," "potential," "will," "would," "could," "should," "continue," and similar expressions, constitute forward-looking statements for the purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including risks related to: our expectations regarding the regulatory approvals required for AUGMENT; the science underlying our two product candidates, which is unproven; our ability to obtain, maintain and protect intellectual property utilized by our products; our ability to obtain additional funding to support our activities; our dependence on third parties; the successful development of, and ability to obtain regulatory approval for, our product candidates; our ability to commercialize our product candidates, including AUGMENT, on the timeline we expect, if at all; competition from others; and our short operating history; as well as those risks more fully discussed in the "Risk Factors" section of our most recently filed Quarterly Report on Form 10-Q or Annual Report on Form 10-K. The forward-looking statements contained in this press release reflect our current views with respect to future events. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our view as of any date subsequent to the date hereof.
