

## OvaScience to Present at CareFWD 2013 Conference Exploring Healthcare Innovations

October 1, 2013

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Oct. 1, 2013-- [OvaScienceSM](#), (NASDAQ: OVAS), a life sciences company focused on the discovery, development and commercialization of new treatments for infertility, announced today that Michelle Dipp, M.D., Ph.D., Chief Executive Officer of OvaScience will present at the CareFWD 2013, the anchor event for the Boston Region Entrepreneurship Week. In the session "FWD Vision 2: Women Leaders in Health Care," 2:15-2:35 p.m., Dr. Dipp will discuss the groundbreaking discovery that changed the long held view on infertility in women and led to the founding of OvaScience, a company committed to improving egg quality for better outcomes in *in vitro* fertilization (IVF). Dr. Dipp will also share her views on leadership and predictions for healthcare in Massachusetts.

CareFWD, being held today at the Westin Boston Waterfront, brings together healthcare leaders to discuss transformative technologies, leadership and cross-segment collaboration opportunities and challenges arising from Boston's unique healthcare 'supercluster'. Dr. Dipp will be joined by leaders in the Massachusetts health care community, including speakers from the Executive Office of Health and Human Services, Commonwealth of Massachusetts; Johnson & Johnson Innovation Center, Brigham and Women's Hospital, and Beth Israel Deaconess Medical Center. *Boston Globe* reporter on innovation and entrepreneurship, Scott Kirsner, will also highlight innovations in health care in his Year in Review. ### About OvaScience

OvaScience (NASDAQ: OVAS) is a life sciences company focused on the discovery, development and commercialization of new treatments for infertility. The Company's patented technology is based on the discovery of egg precursor cells (EggPC<sup>SM</sup>), which are found in the ovaries. By applying proprietary technology to identify and purify EggPCs, OvaScience is developing potential next generation *in vitro* fertilization (IVF) technologies. The Company currently has two product candidates in development: OvaTure<sup>SM</sup>, which seeks to create mature fertilizable eggs from a woman's own EggPCs without the need for hormone injections, and AUGMENT<sup>SM</sup>, which aims to improve egg quality and increase the success of IVF. OvaScience's team of scientists, physicians and advisers includes recognized leaders in the field of reproductive medicine. For more information, please visit [www.ovascience.com](http://www.ovascience.com) and connect with us on [Twitter](#) and [Facebook](#).

### Forward-Looking Statements

*This press release includes forward-looking statements about the prospects for the Company's technology in addressing female infertility, the Company's strategy, future plans and prospects, including statements regarding the development and planned launch of the Company's product candidates, including AUGMENT. Any statements in this release about our strategy, plans, prospects and future expectations, financial position and operations, and other statements containing the words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "aim," "potential," "will," "would," "could," "should," "continue," and similar expressions, constitute forward-looking statements for the purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including risks related to: our expectations regarding the regulatory approvals required for AUGMENT; the science underlying our two product candidates (AUGMENT and OvaTure), which is unproven; our ability to obtain, maintain and protect intellectual property utilized by our products; our ability to obtain additional funding to support our activities; our dependence on third parties; the successful development of, and ability to obtain regulatory approval for, our product candidates; our ability to commercialize our product candidates, including AUGMENT, on the timeline we expect, if at all; competition from others; and our short operating history; as well as those risks more fully discussed in the "Risk Factors" section of our most recently filed Quarterly Report on Form 10-Q or Annual Report on Form 10-K. The forward-looking statements contained in this press release reflect our current views with respect to future events. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our view as of any date subsequent to the date hereof.*
