

## OvaScience to Present at the JMP Securities Life Sciences Conference

June 17, 2016

WALTHAM, Mass.--(BUSINESS WIRE)--OvaScience<sup>SM</sup> ([OVAS](#)), a global fertility company focused on the discovery, development and commercialization of new treatment options, announced today that Company management will present at the JMP Securities Life Sciences Conference on Tuesday, June 21, 2016 at 11:30 am ET at the St. Regis New York.

A live audio webcast of the presentation can be accessed by visiting the investor section of the Company's website at [www.ovascience.com](http://www.ovascience.com). A replay of the webcast will be archived on the OvaScience website for two weeks following the presentation.

### About OvaScience

OvaScience, Inc. ([OVAS](#)) is a global fertility company dedicated to improving treatment options for women around the world. OvaScience is discovering, developing and commercializing new fertility treatments because it believes women deserve more options. Each OvaScience treatment is based on the Company's proprietary technology platform that leverages the breakthrough discovery of egg precursor (EggPC<sup>SM</sup>) cells – immature egg cells found inside the protective ovarian lining. The AUGMENT<sup>SM</sup> treatment, a fertility option specifically designed to improve egg health, is available in certain IVF clinics in select international regions. OvaScience has commenced a non-commercial preceptorship training program with the OvaPrime<sup>SM</sup> treatment, which could increase a woman's egg reserve, and is developing the OvaTure<sup>SM</sup> treatment, a potential next-generation IVF treatment that could help a woman produce healthy, young, fertilizable eggs without hormone injections. OvaScience treatments are not available in the U.S.

### Forward-Looking Statements

This press release includes forward-looking statements about the Company's plans for the AUGMENT treatment, OvaPrime treatment and OvaTure treatment. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including risks related to: the possibility that international IVF clinics that we work with may determine not to provide or continue providing the AUGMENT treatment or OvaPrime treatment, or to delay providing such treatments, based on clinical efficacy, safety or commercial, logistic, regulatory or other reasons; the science underlying our treatments (including the AUGMENT, OvaPrime and OvaTure treatments), which is unproven; our ability to obtain regulatory approval or licenses where necessary for our treatments; our ability to develop our treatments on the timelines we expect, if at all; our ability to commercialize our treatments, on the timelines we expect, if at all; as well as those risks more fully discussed in the "Risk Factors" section of our most recently filed Quarterly Report on Form 10-Q and/or Annual Report on Form 10-K. The forward-looking statements contained in this press release reflect our current views with respect to future events. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our view as of any date subsequent to the date hereof.
