About OvaScienceSM

OvaScienceSM, Inc. (NASDAQ:OVAS) is a company focused on the discovery, development and commercialization of new treatment options for women and families struggling with infertility. Each OvaScience treatment is based on the Company's proprietary technology platform that leverages the breakthrough discovery of egg precursor (EggPCSM) cells – immature egg cells found inside the protective ovarian lining. OvaScience is developing OvaPrimeSM, which could increase a woman's egg reserve and OvaTureSM, a potential *in vitro* fertilization (IVF) treatment that could help a woman produce new, fertilizable eggs without hormone injections. OvaScience's AUGMENTSM treatment, a fertility option designed to improve IVF success rates, is available in certain IVF clinics in Canada and Japan. OvaScience treatments are not available in the U.S. For more information, visit www.ovascience.com.
